## **RULE SUMMARIES FOR INFORMAL STAKEHOLDER WORKSHOPS**

### **Rule 242**

#### **Emission Credits Generated By The Voluntary Paving Of Unpaved Roads**

Maricopa County will hold another workshop to discuss the many changes that the Environmental Protection Agency (EPA) suggested to the proposed rule. There will be more detail required by the source to be submitted in the application process. Some of the provisions in the Section 400 (Administrative Requirements) were redundant with the provisions in Section 500 (Monitoring And Records). A few definitions will be expanded for clarification purposes.

### **Rule 280**

#### **Fees**

Maricopa County will propose to amend Rule 280 in order to update fees to account for the loss of grant monies. Grant monies established by Arizona Revised Statutes (A.R.S.) §49-551 were relied upon during the 2002 workload analysis and fee revisions; however, these grant monies have not been appropriated by the legislature for the past 2 years. In addition, fees will be updated to reflect increased indirect costs.

### **Rule 310.01**

#### **Fugitive Dust From Open Areas, Vacant Lots, Unpaved Parking Lots, And Unpaved Roads**

Maricopa County will propose to amend Rule 310.01 in order to address Best Available Control Measures (BACM) and Most Stringent Measures (MSM) proposed in the Salt River PM<sub>10</sub> State Implementation Plan Revision.

### **Rule 316**

#### **Nonmetallic Mineral Mining And Processing**

Maricopa County will propose to amend Rule 316 in order to address Best Available Control Measures (BACM) and Most Stringent Measures (MSM) proposed in the Salt River PM<sub>10</sub> State Implementation Plan Revision.

### **Rule 314**

#### **Open Outdoor Fires**

Maricopa County will propose to amend Rule 314 in order to allow Maricopa County to conform to the State's Regional Haze State Implementation Plan (SIP) by meeting the applicability test found in 40 CFR 51.309 and by addressing recordkeeping and reporting requirements. There will also be a few technical changes to the rule.

## **RULE SUMMARIES FOR ORAL PROCEEDING**

### **Rule 313 (Incinerators, Burn-Off Ovens, And Crematories)**

Revised, proposed Rule 313 will regulate burn-off ovens and crematories in addition to incinerators. The proposed rule contains an additional 8 definitions for clarity and allows night burning if a continuous opacity meter is used. The proposed rule contains different temperature requirements and residence times for the three different types of units - incinerators, burn-off ovens and crematories. The proposed rule lists 4 additional EPA test methods to the two methods already listed in Section 504.

## **RULE SUMMARIES FOR PUBLIC HEARING**
